go lite

Go Lite and Boost Your Hearing When You Need It

This OTC rechargeable, in-the-ear hearing aid gives you the sound boost you need when you need it, without breaking the bank. Go Lite is wireless, small, discreet, and works best in small groups or for watching TV.

Available in black.

go prime

Go Prime and Take Your Hearing Into Your Own Hands

This OTC rechargeable, in-the-ear, digital hearing aid gives you crisp and clear sound when you need it most. Go Prime is wireless, small and discreet with easy volume adjustment. This device is excellent if you are looking for added features that could help you hear better in a large variety of environments.

Available in black.

A Price You Can't Ignore

We believe that the ability to effortlessly experience the world around you should not be hidden behind a pay-wall. Because of this, our OTC industry defining hearing-technology is fairly priced.

What to expect from your Go OTC hearing aids

Redefining Sound

Change the way you interact with the world. Rechargeable, in-the-ear, OTC digital hearing aids with advanced technology that reinvent the experience of sound. Go hearing aids offer you crisp and clear sound when you need it most.

Ready To Wear

The pre-assembled Go OTC hearing aid is ready for you to get started with your hearing journey. Put them in your ears, use the controls to easily adjust settings, and you'll be hearing better in no time.

Created For Comfort

Our in-the-ear OTC hearing aids are designed for optimum comfort. Their customizable buds form the perfect fit, allowing you to focus effortlessly on the sounds around you.

No Strings Attached

No bulky ear pieces, tubes or wires. No hassle. Go OTC hearing aids fit discreetly in your ear canal and will not hook on eyewear, masks, or get stuck in your hair.

Uninterrupted Listening

Your rechargeable charging case provides up to six full charges for your Go OTC hearing aids. Each complete charge can give you up to 30hrs of quality hearing.

Noise Reduction

Go OTC hearing aids actively manage noise in a variety of environments so that you can participate in conversations and activities with ease.

Size Matters

Powerful tech wrapped up in a tiny package. Small, discreet and simplistic, with zero compromises on sound quality.

"I have never used hearing aids before so I tried some \$4,000 ones and they did not work for me. When I got my Go Prime hearing aids, I tried them and **I am very happy!**"
